

Get on the right track to diversity and inclusion!

French speaking people are an invisible minority that are not recognized by a last name alone... Let the French speaker come to you.

Clearly place the focus on your bilingual staff using these simple and effective promotional tools. These posters, pins, and promo items have been proven effective by various Ontario organizations working with Francophone Minority Communities.

The models were enhanced in response to trials and recommendations by customers and users in health care settings. Increase your staffs' productivity and reduce patient confusion.
